

“ANOTHER LOOK AT THE GARRETT ACE 250”

“I got the *Ace 250* for a very simple reason. I wanted to put some easy and relaxed fun back into my detecting...

“In summary, the Garrett *Ace 250* is a very capable and easy-to-use coin and relic detector that would also be very useful on small, shallow gold. Although it is sometimes described as a ‘beginners’ machine, it has many functions often only seen on the upper-end detectors. I love it. It fits the bill for me, being very effective at finding the stuff I want to find and telling me what will be a waste of time. It’s lightweight and straightforward, fun to use and easy to look after. And it didn’t damage the budget too much, either.”
