Garrett Metal Detectors®

## Pinnacle Of Metal Detecting

**Finder:** Chris L., Europe

**Using:** *AT Max International*

**Find:** Chris recently made a discovery that would make any detectorist jealous. Chris wrote, "On my last short visit to a local detecting spot that has never really produced anything older than 1700, I took a break under a tree to get my breath. I decided to give it another 20 minutes and I am so glad I did!"

"I had a deep solid signal hitting at 70/72 on the *AT Max International*. After trying

to dig and almost giving up from being out of breath, I was now 10/11 inches deep, when the most amazing coin popped out of the ground! A 1422 Henry VI medieval gold hammered noble! I have seven individual certified treasure cases logged with the British museum to date but this is a first for me and probably the pinnacle of my metal detecting hobby so far! The find of a lifetime. Thank you, Garrett!"

**Finder:** Joseph G., New York

**Using:** *ACE 200*

**Find:** 1903

Indian Head penny

**Finder:** Aaron C., Utah

**Using:** *AT Pro*

**Find:** 1889 Paris, France World's Exposition watch fob

Check out some of the first field testers videos:

# ACE APEX™

Click on any image to view the YouTube video.

Bill and Kurt, from YouTube's Hoover Boys, went out with some friends to field test the *ACE Apex* in Pennsylvania. Watch their video to see some great discoveries!

Beau "Aquachigger" takes the *ACE Apex* out for a spin at an old French and Indian War fort and homesite.

Brad from YouTube's Green Mountain Metal Detecting takes out the *ACE Apex* for a field test on an early 1800s homesite.

Dave Canterbury, from Discovery Channel Dual Survival, field test the *ACE Apex* at an old Scouts camp that he gained permission to search.

YouTube's Gypsy from "Zero Discrimination" shows off her first finds while field testing the *ACE Apex* at an old 1800s cabin site with a friend.

Come along with Wesley C., "I Dig Texas", as he discovers some nice silver finds while field testing the new *ACE Apex*.

**Finder:** Nick G., New York  
**Using:** *AT Pro*

**Find:** 1803 silver Spanish 2 reale

**Finder:** Brian W., Virginia  
**Using:** *AT Pro*  
**Find:** Civil War Canfield & Brothers Virginia state seal militia button

# ONE OF THE GREATEST MEMORIES FEATURED FIND

Finder: Seth E., Pennsylvania  
 Using: *AT Pro*  
 Find: Seth shares his story:

"After receiving permission to detect an 18th century house, my father and I set out to spend the day searching it.

"The day started slow until my father called me over reporting he had found a 'button' with 'U.S.' on it. At first, I thought it was military, and my imagination ran wild. However, nothing would prepare me for what I was about to see.

"I walked over to my father and he put the 'button' in my hand. Yet, it was no button, but rather the find of a lifetime. The first thing I noticed were the rays on the reverse of what I quickly identified in my head but could not put the words together to identify it out loud. After a few seconds of realizing what I was holding, I realized my father thought the 'all-seeing eye' design that is on the reverse of the what he had found was what he thought was a broken shank mark, leading him to believe it was a button. I looked at my father and had a smile ear to ear.

"My father had found a 1783 Nova Constellation Copper. It was in beautiful condition and one of the most amazing things I have ever witnessed dug.

Moments like these make those countless days of getting skunked all worth it. My father couldn't believe it himself after I explained to him what he had found. Yet, it was real, and would go down as one of the greatest memories my father and I have shared together in five years of metal detecting.

Finder: Adam E., Virginia  
 Using: *AT Pro*  
 Find: 1851 Civil War Union officers sword belt plate

Finder: Rick L., Missouri  
 Using: *Hunter*  
 Find: Small silver ring

## Garrett's Code of Detecting Ethics

Charles Garrett always urged his fellow searchers to conduct themselves as responsible treasure hunters and to leave their hunt areas in better condition than they found them. Please follow your local directives during the current health crisis, but when you are able to safely enjoy detecting, here are just a few of his keys to good conduct in the field:

- Never trespass or hunt on private property without permission.
- National and state parks/monuments, etc. are absolutely off-limits.
- Always fill in every hole that you dig.
- Do not leave litter or other discarded junk items lying around.
- Always carry out all rubbish and dug targets with you when you leave a search area.
- Use reasonable caution in digging toward any target, particularly in areas where you are uncertain of the ground conditions.
- Keep informed on and obey all local and national legislation relating to the discovery and reporting of found treasures.
